### About This Content

Includes new playable diver Viktor in both Frogman and Crimson Elite wetsuits!

#### **Viktor: Frogman**

A former Soviet military trained frogman, Viktor now works for hire as an unusual mercenary. His years of training with underwater weapons provided a lucrative career for a while, but hard times have forced him to deal with Stubbs.

#### **Viktor: Crimson Elite**

An elite Soviet military trained frogman, Viktor was a part of a shady offensive spetsnaz unit. Formally tasked with counter-frogman protection for Soviet Navy assets around the globe, rumors are the unit did far more than guard boats.

I personally like the red one more than the green skin for Viktor. The red can go with a lot of stuff and is one of the good ones out of the Diver skins. Definitely worth it.
